Envoy Data

WHO IS ENVOY DATA?

Envoy Data, established in 1993, has been the trusted Value Added Distributor for enterprises, small- to-medium businesses, and public sector entities, providing comprehensive, best-in-class cybersecurity solutions that effectively mitigate costly threats.

Customers trust Envoy Data for our dedicated team, strong relationships, and the ease of doing business.

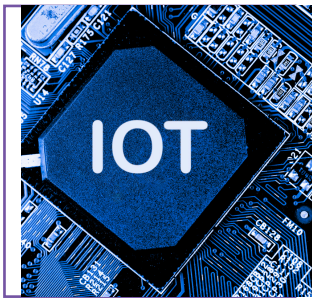

HEALTHCARE

SOLUTIONS WE COVER:

- Biometrics
- Card Management Systems (CMS)
- Certificate Lifecycle Management (CLM)
- Contact/Contactless Smart Card Readers
- Converged Access Credentials Physical Access (PAC)
- Encryption
- FIDO
- Micro Segmentation
- Mobile Wallet Credentials
- Multifactor Authentication (MFA)
- One Time Passwords (OTP)
- Physical Identity Access Management (PIAM)
- Public Key Infrastructure (PKI)
- Single Sign On (SSO)
- Video Management (VMS)
- Visitor Management (VMS)
- Zero Trust Networking (ZTNA Secure Remote Access)

PROFESSIONAL SERVICES OFFERED:

- Implementation Services (covering all products above)
- Pilot/Proof of Concept (POC)
- Level 1 & 2 Support for End Users
- Demo and Discovery Calls for Partners Comprehensive
- Project Management
